

Will you survive the transition of human industrial civilization happening now due to peak oil and climate change? Can you see the forest for the trees, the earth for the dream, the universe for the seed? [Anima Mundi](#) is a film about hope, but its also a film about no hope, it's a film about reality, from the outside looking in.

Anima Mundi is a new documentary movie (Coming Soon) on *Permaculture, the Gaia theory, Peak Oil survival* and

Climate Change

(man-made or not) featuring David Holmgren (co-originator of Permaculture), John Seed (Deep Ecology), Dr Stephan Harding (Gaia Science and author of Animate Earth), Dr Vandana Shiva (Human Rights – Environment – Philosophy), Michael C Ruppert (from the movie Collapse), Michael Reynolds (from the film The Garbage Warrior), Noam Chomsky, Dr Christine James (Psychology), Dr Mark O'Meadhra (Integrative Medicine) and Permablitz.
